Good Story, Many Typos

By Teresa Ramseur

This one was a good one, and a great companion piece to One Wore Blue, although at times I felt that Daniel was a bit of a show-off, there was also plenty of history and romance here as well. And yet, I again, gave the book four stars because as with the previous one, there were numerous typos and misspelled words, I believe Callie is addressed as "Mr. Michaelson".

I agree- it does keep getting better!

By janlouise

One Wore Blue starts with the beginning of the Civil War and is the Cameron family's view point of the war- it is especially concerned with the brother (Jesse Cameron) who feels that he must fight on the Union side of the war. (A great book!) And One Wore Gray is the 2nd story of Graham's Civil War trilogy about the Cameron Family- the reader now gets a glimpse of the war fought from the Confederate side. Daniel Cameron, brother to Jesse (the Union surgeon) is a Confederate Cavalier. The story picks up approximately half way through the war (where One Wore Blue stopped) when Daniel is wounded (for a second time) during a battle on a farmland in Maryland. Callie Michaelson is a widow of a Union soldier that is living on family property alone, trying to hold things together until her brothers are able to return from the war. Daniel ends up at her home and even though Callie is a very strong Union supporter, she recognizes Daniel as being a human being in need of medical help, instead of looking at him strictly as her enemy. She takes him in to nurse him while he steals her heart. During his recovery of approximately a week they are able to forget the

war and live a fantasy of what life might be like if only the war... But then Daniel must leave to return to his Confederate cause. Callie is caught- having to make the decision of letting Daniel escape and be killed by the Yankee soldiers that now know of his existence or call him back to be captured and possibly go to Yankee prison camp. Will Daniel ever forgive her? Will she be able to let him know that she loves him? And this all happens right about the beginning. It is a great story. I appreciated how Ms. Graham continued the story from one book to another. She ends the war with One Wore Gray. The ending is great! I cried. I also appreciated how she continued Jesse and Kiernan's love story through One Wore Gray. I highly recommend reading this- but try to read One Wore Blue first so you will get the whole picture. I am looking forward to getting And One Went West. It is about the sister of the Cameron Brothers.

You thought it couldn't get any better...

By Sarah E. Oliver

I loved "One Wore Blue" so much and my hopes were high for the story of Jesse's brother, Daniel Cameron. This book grabbed me from the very first pages. The story of the Confederate soldier in love with the Yankee lady may seem to be cliché, but Heather Graham does it with such emotion, such passion, such depth that it seems like a brand new story. As with the story of Jesse and Kiernan, Daniel and Callie's story is rife with emotional turmoil. The characters are easy to fall in love with and you find yourself aching for them to find their way to each other. I get quite frustrated with the stories that have the hero and heroine endlessly fighting and bickering, but with Heather Graham (especially this particular trilogy), the tension is always deeper than selfishness, or the lead characters merely being irritated by each other. When Callie goes running after Daniel right before he is captured, you hold your breath wanting desperately for them to be able to avoid the pain you see coming. When Daniel thinks that Callie has betrayed him, your heart breaks knowing what a horrible misunderstanding has occurred and you are right there with them in the midst of their pain and longing for each other.

This book not only lived up to my high expectations, it surpassed them. This is a **MUST READ**, as is its predecessor.
