A Culturally Relevant and Communicative Language Teaching Hindi Textbook

By Jennifer A Decker

As a TESOL educator and Hindi learner, I can confidently recommend this textbook to anyone looking for a textbook for a university or high school class, as well as for those looking to study on their own. The book focuses on topics which are relevant and necessary for anyone planning to actually use Hindi in the future. It provides ample communicative teaching based exercises which require students to move beyond what many other Hindi textbooks feature (namely transformation drills) and actually try to use language in ways that they would outside of the classroom. The layout and text are clear and aesthetically pleasing and color and pictures make it more interesting than many other books on the market. The inclusion of a CD which demonstrates the pronunciation of vocabulary items and has material for listening exercises provides students with the opportunity to listen at home.

As an educator, I was thrilled to finally find a Hindi textbook which featured cultural references and a strong communicative focus. These factors were also encouraging for me as a student. Moreover though as a student I found this to be a fantastic resource as it is both comprehensive and easy to understand, even when I was initially learning via self-study. It has been instrumental in helping me to begin my Hindi learning journey and will be my most frequent reference guide in the future as I pursue additional study. I would highly recommend it for others!
