Not a good choice.

By Rebecca James

Super waste of money. I struggled a bit in patho, and thought this might help me understand the concepts in context a little better, but it was a huge bust. Pathophysiology can be challenging, and having additional resources to really help you get the material can be the difference between an "A", and a "C." The "Patho made Incredibly Easy" book would be a much better use of your student loan disbursement.

helped greatly

By carna

bought the book for my daughter who is going for her MSN

it has helped her tremendously

finding the book was not easy where we live and I thought of amazon as usual they had it
