By Prime Pastured Peeps

This book was written in 1905, but has some good content for "tricks" with photography and is an interesting read. I would however save your money as you can view this book as a PDF if you search out the title in Google (I will post a link in the comments section). Topics included cover: magic photographs, spirit photography, silhouettes, photographing the invisible, the disappearing photograph, magic vignettes, and more. Enjoy this entertaining book.
