Sexy billionaire Dominic Montgomery thought he had it all... until he met her.

Forget living off the family fortune. Dominic made his own billions as a world-famous model. And, of course, being the world's biggest sex symbol means having a smoking hot girlfriend that most men would kill for. On top of it all, Dominic has another passion -- using his architecture degree to build luxury resorts on some of the world's most beautiful tropical islands.

In other words, he's the perfect combination of brains and sex appeal.

But when a local island myth threatens to ruin his latest architectural masterpiece, Dominic decides his only option is to solve it. The problem? This myth is hundreds of years old, and in all that time, no one's been able to get to the bottom of it.

Getting tangled in a massive mystery is only part of what this sexy billionaire bad boy is about to experience. Little does he know that a hot historian is about to come along and rock his world.

Cliffhanger - you know the drill - buy the next one to see what happens. I won't be buying it.

By cgl

This one could have been better. I hate when I get a book that isn't a book. This one ends in the middle of the story. When will authors write books that are total books. If it is a series each one needs to be able to stand alone. This one didn't because there wasn't an end.

Cliff Hanger

By T. Bouillion

Basic writing skills. I get the impression the author is very young and inexperienced at writing although it was enjoyable it lacks any extraordinary gift...yet. Keep writing Jessica...I see promise here. Complete your

thoughts and experience will cure your starry eyed theme.

Amazing book! Can't wait to read the next one!

By A Smith

Loved it! The sex scenes were steamy, but there was also a solid plot (and lots of surprises!) to go along with it. Yes, it ends with a cliffhanger but I definitely plan on reading the next book to see how it all turns out.
