Spiritual Warfare While You Sleep, explains the devices of the enemy to pollute your life. This book provides information, prayers to break curses of poverty, sickness, and tools to help you interpret your dreams. After reading this book you will know how to obtain victory over your dream life. Many people experience opposition because they are lacking knowledge that is essential to their breakthrough. Many people either do not dream or can not recall their dreams. This is more dangerous, it means your spiritual monitors are turned off. In the military many wars are won prior to the dispatching of the squadrons or battalions. Many sleuth operations take place before the enemy knows the opposing army is about to strike. In this season learning how to fight from your God given position with an arsenal of weapons is essential. You shall reach your destiny by fire, in Jesus Name.

Excellent Content

By Fifthook Media, LLC

The book focuses on an aspect of spiritual warfare that is hardly studied, and that is in the area of sleeping and dreaming. The author clearly has insight into dreams and demonic attacks while sleeping. The first night I started reading it, I had some weird dreams that I was able to renounce and rebuke in the name of Christ while asleep. I know that this ability was the direct result from reading the book and learning something in the process.

Positives: the content is excellent and beneficial. The book is short and an easy read. The author offers many combat prayers and protection prayers for the reader to recite prior to sleeping.

Negatives: there are grammatical errors that distract the reader at times, and the format is not solid in the

Kindle version I purchased with several blank pages at the end of the book. Fortunately, I was listening to it on audible mode and still heard the content.

If the book had been better formatted with little grammatical error, I was have given it a 5-star. I gave it a 4-star because of that fact. Again, the content is good and at \$2.99, it is a worthwhile read.

Interesting subject but writing style very difficult to read.

By Redredrose

The author presents very intriguing and potentially helpful material for those who might be drawn to spiritual warfare, but it is hard to rate the content itself because the material itself was mostly unreadable. The book was not well developed and the lack of proper English grammar and syntax made various sections almost unreadable and extremely difficult to understand. The author would do well to use an editor to do extensive work to make the subject matter readable and more clear so that the reader can better appreciate what the author is trying to convey. At present, the work is filled with grammatical errors, unfinished and incomplete sentences and paragraphs, and a lack of organization that would enable the reader to follow the flow of what the author is trying to communicate. I think that the material could be really great if the material was reworked.

WOW.....Wish there were 10 Stars....Highly Recommend

By Amazon Customer

I am half way through this book and I am giving it a review because it has shifted my Prayer Life. I have been looking for someone to touch on this subject and found this book on Amazon. Churches don't even touch on this subject. I have been experiencing Spiritual Warfare in dreams for a long time and did not understand some things. I highly recommend this book. YES there are some grammatical errors, but when you read it, you do understand what she is saying. I thank God for this book and again I HIGHLY RECOMMEND IT!!!
