Bell* Nevertheless, this book is referred to review because it is a motivating publication to give you a lot more chance to get experiences and also ideas. This is basic, read the soft documents of the book [*The Invisible Crime: Illegal Microchip Implants And Microwave Technology And Their Use Against Humanity By Michael F. Bell*](#) and you get it.

THE INVISIBLE CRIME: ILLEGAL MICROCHIP IMPLANTS AND MICROWAVE TECHNOLOGY AND THEIR USE AGAINST HUMANITY BY MICHAEL F. BELL PDF

What happens when a typical, upper-middle-class man from a respectable American family becomes the target of a covert organization bent on controlling both mind and body? When that secret organization is armed with high-tech weaponry which includes microchip technology aimed at controlling the minds and actions of its victims, terror reigns. In this chilling, true-life account, writer Michael Fitzhugh Bell is drugged, abducted, raped, and surgically implanted with microchips. Tracked and tortured, Michael's predators can even read his thoughts. In this battle of man versus technology turned against us, Michael must prove his case to the police before his attackers not only eliminate Michael's memory-but eliminate Michael. From the terror of being electronically stalked to the horror of surgical microchip implants and mind control, Michael Fitzhugh Bell's experiences as a victim will leave you shocked and amazed. His uphill battle with doctors, lawyers, police, Government, F.B.I., C.I.A., and a secret criminal underworld begins in Hollywood, races into and through the North Carolina backwoods, and then back to California. As you experience Michael's journey on each horrific page, you will see actual medical photos, X-rays, ultrasound and MRI images, all showing non-therapeutic tracking and torture devices. These instruments and tools are available to anyone on the Internet, including criminal organizations like those which targeted Michael Bell. His battle for survival continues today. Are you prepared?

Mind control, organize stalking

By Amazon Shopper

I have read other books of stalking/mind control: 'TRANCEformation of America' and '1996'. I found about this book by chance, after listening to an interview: "Coast to Coast AM" on YouTube.

This book brings all the hateful new mind control technology up to date. It's a horrific true story of one persons nightmarish experience of being stalked, harassed, drugged AND THEN had implants to track everywhere he went 24/7! With photos of X-rays as proof. The author was repeatedly attacked with no idea as to why or who was orchestrating this.

If anyone doesn't believe this kind of thing can happen - or isn't aware, it's long over due to know what can happen; to anyone.

I think it is above and beyond brave to be able to deal with this illegal & evil crime. I can only hope that more ppl will become aware & that others will speak out against this. This HAS to be made illegal in this country (and everywhere).

That Mr. Bell had the means to seek help* & made every attempt not to let the 'perps' totally shatter his spirit definitely proves the power of his inner strength AND faith, faith that he would not let this crush his life. When I 'say' faith, I mean; that when the absolute worse thing that anyone can imagine (stalking is not what comes to mind for most ppl), something that threatens one's mental, emotional and physical health - a person HAS to dig deep within to find (what I think) is that spiritual resolve that is within all of us to overcome, it doesn't have to be a religious thing, it doesn't matter what it's called.

I sincerely hope that organized stalking will be made illegal & I thank the author for having the courage for writing this book.

IF anyone is going through this or knows someone, it is so necessary to to bring this s*** out into the light (sorry about that, this makes me so angry) this MUST be stopped - our future depends upon it. (and I mean that seriously, "1984" is already here)

*obviously most of us may not be able to travel long distances to seek help, but more importantly- when organized stalking takes place it is imperative that the TI (targeted individual) seek out someone for help, and there are ppl able to give info as to how to cope with this.

A tail of gang stalking

By Steven J. O'malley

For those who do not know of gang stalking, they will find this personal story very hard to believe. However this type of thing is real and I commend the author for writing this and getting it out there to the public. The story is hard to believe, but this type of thing is happening to many people. I know, first hand.

You must read this book.

By Dana P. Mcdermott

You must read this book. It will keep you informed about the dangers of electronic invasions of your privacy here and elsewhere in the world. You will know how it is done. The author writes of his own personal experiences.
