By Mabila

This really is a fantastic textbook, whether you're studying AP English Language and Composition, or simply trying to improve your own writing and discussion. The first portion of the book is a textbook discussing rhetorical strategies. It helps develop better, more thoughtful readers and writers. The rest of the book (2/3+) is devoted to essays loosely grouped by subject. Some are "classic" essays (from the 18th and 19th centuries) and others are more contemporary pieces (from the 20th and 21st centuries). Each includes questions meant to prompt discussion and reflection, particularly with regards to stylistic and rhetorical choices. There are also groups of essays, charts of data, and visuals that can be used to work on synthesis essays...

The text is well-organized, engaging, and appropriately succinct. The essays included are well-written and represent a pleasing diversity of voices.

Warning to the reader, Feminism, male bashing, and other such hazardous material is contained in this product....

I love the stories, but the liberal approach to things and incredibly evident feminist agenda diminishes it's value
