THE WORLD OF FIGHTING DOGS (REPRINT ED) BY CARL SEMENCIC PDF

Whether you look upon dogfighting as a sport or as an exercise in pure barbarity, this book offers a wealth of valuable information. It covers the history of dogfighting in general and also provides in-depth studies of the individual fighting breeds. Fascinating and factual, it's also loaded with good photos - including many full-color photos - and it includes photos of some of the rarest dog breeds in the world. Individual breeds are covered thoroughly, with attention to their history and, where applicable, their standards of appearance and behavior. And although there is no attempt made to rank the various breeds according to their fighting abilities, interesting comparisons and contrasts of style are presented.

the world of fighting dogs

By Greg O'Sullivan

A great book for anyone wishing to know more about bulldog breeds, it also expells some of the myths surrounding fighting dog breeds. this book does not promote the fighting of dogs, but does explain the history of the barbarrick so called sport.

Excellent review of the world's most powerful dogs

By J.A.

Whether or not this book is new or old to the dog world in general, it wasn't new to me. I hadn't heard of several of the dogs contained herein, and it was very interesting to see what they look like and read about their history and gameness.

I learned quite a bit about gameness, and the inappropriately labeled "sport" of dogfighting, although this book DOES NOT (nor do I) support or promote dogfighting. I also learned that Dr. Semencic really likes the American Pit Bull Terrier - as it is the gamest of all breeds.

For someone who didn't know very much about the so-called fighting dogs going in, this was an excellent introduction. The information was accessible, and pictures contained within were helpful in getting a good feel for each dog that was discussed.

A must if you really want to know

By Dean

This book is easy to read, keeps you going and offers more information on fighting breeds than any other book I have found to date. Read it, you won't be sorry.
