After a sniper opens fire at an elementary school in an L.A. suburb, LAPD Detective Milo Sturgis calls in his friend, child psychologist Alex Delaware (seen last in *Silent Partner*). None of the children is hurt, but the shooter, a young woman named Holly Burden, is killed by the bodyguard of one of two politicians visiting the school. While helping the kids overcome the trauma of the shooting, Delaware becomes involved with the edgy, dedicated principal, Linda Overstreet. He also agrees to Holly's father's request to do a "psychological autopsy" to clear his daughter's name. As racist-motivated vandalism at the school accelerates, Milo discovers that a black friend of Holly's was recently killed by police; then one of the politicians is gunned down. Alex's life is threatened as he traces events to a revival of the German American Bund and an unexpected political alliance with roots in an explosion of 20 years earlier, echoed in the fiery resolution here. Kellerman's meticulously constructed thriller, while leaning hard on the anti-Semitic component of its plot, again demonstrates how well the role of sleuth fits that of therapist; Alex, a little lost without former girlfriend Robin, speaks with a unique, convincing voice. 150,000 first printing; Mystery Guild selection; Literary Guild and Doubleday Book Club alternates.

YA-- Kellerman provides his fans with yet another of his exciting tales centered on Dr. Alex Delaware, psychologist/sleuth. Set in California, the book opens with a near massacre in a schoolyard. In this intricately plotted story, the hero is challenged to locate a cleverly disguised villain from a collection of normal and not-so-normal suspects. The rapid pace carries readers into a world of politicians who are more than they seem to be on the surface, families that dysfunction in spectacular ways, and suspicious characters with murky and unusual pasts. In his examination of political extremism, the author touches on an issue that is both timely and thoroughly fascinating. Although the psychoanalytical aspect occasionally becomes a bit overbearing--minor characters using professional-level terminology, for example--the overall effect is engrossing. A minor love theme is played out, and a spectacular and violent climax pulls the disparate threads of the story together. Kellerman's fans won't be disappointed.

By the time psychologist Dr. Alex Delaware reached the school the damage was done: A sniper had opened fire on a crowded playground, but was gunned down before any children were hurt.

“Virtually impossible to put aside until the final horrifying showdown.”—People

While the TV news crews feasted on the scene and Alex began his therapy sessions with the traumatized children, he couldn't escape the image of a slight teenager clutching an oversized rifle. What was the identity behind the name and face: a would-be assassin, or just another victim beneath an indifferent California sky? Intrigued by a request from the sniper's father to conduct a “psychological autopsy” of his child, Alex begins to uncover a strange pattern—it is a trail of blood. In the dead sniper's past was a dark and vicious plot. And in Alex Delaware's future is the stuff of grown-up nightmares: the face of real human evil.

Jonathan Kellerman does it again!

By Megan

I got Time Bomb for Christmas and I could not put it down, it was so good, I would stay up late, not wanting to stop. Jonathan Kellerman is the master of psychological thrillers. Here is a little about the story.

When Alex Delaware gets a call from his friend, LAPD homicide detective, Milo Sturgis, he is asked to come down to a school which has been targeted by a sniper, and help the kids. When he gets there, he finds that the details are sketchy and all that he learns is that the sniper has been killed without hurting anyone. Milo tells him that the sniper was a girl, nonviolent, and had mental difficulties. Now, Alex has to figure out, was the sniper a killer, or just another victim?

THE CLOCK IS TICKING.....

By BeatleBangs1964

towards the final detonation! A sniper has just opened fire on a school playground, creating trauma and mayhem. She was shot to death before she could claim any child casualties.

She? Yes. The mysterious woman who opened fire a propos of nothing had secrets begging to be revealed. Dr. Delaware and his sidekick Officer Sturgis travel down some seedy side streets before they unmask the sniper's identity and reason for opening fire. The attacker's father enlists the aid of the duo, requesting that they do a psychological portrait of his slain daughter. As the men delve deeper into their work, they uncover

a Pandora's box of ugly secrets and are left with the question of who was REALLY a victim the day of the shooting?

On the plus side, Alex develops a new romantic partner, principal Linda Overstreet. A tough Southwesterner, she provides more class than Robin ever did. She also appears to be much brighter. She has an interesting psychological background including "cops and music." It would have been wonderful if Robin had been ushered out the door for good.

As usual, if there is food, kisses or wine you can find Robin. She makes a brief appearance with deli sandwiches and wine and the requisite kiss. I'm tired of Robin and how she and Dr. Delaware spend the majority of their time involved with food in some form or fashion.

Boring and Pretentious

By Thriller Lover

I've enjoyed other Jonathan Kellerman novels, but I thought TIME BOMB was a real dud. This book is probably twice as long as it needs to be, with endless descriptions and ruminations that add nothing to the plot. Put simply, TIME BOMB is one of those novels that could have used a good editor. This might have been a decent novel if it was 150 pages shorter.

Even worse, there's very little genuine suspense; Alex Delaware faces no danger in this story until maybe the last 80 pages of the book. The plot is also too convoluted, to the point of straining credulity. The identities and schemes of the book's villains, for example, are downright ridiculous.

In the end, this novel is a slow-paced bore. In particular, the dialogue in TIME BOMB is very poor and stilted -- too many conversations where characters give long, pretentious speeches instead of talking like real people. I also thought that Delaware came across as pompous and arrogant in many of these scenes, too much of a know-it-all for my tastes.

Kellerman's a very decent writer, but his plotting skills are highly uneven. If you've never tried him before, my advice is to read his earlier novels such as WHEN THE BOUGH BREAKS, SILENT PARTNER and OVER THE EDGE. Those novels have better structured plots, and are far more enjoyable reads.
