A new view of the Napoleonic wars at sea

By JD

This is not a halting imitation of Hornblower or Patrick O'Brian. Far from it. Just as rousing in action and accurate in maritime detail, Bond's latest tells a story of those desperate times from a totally new angle, that of the new young captain of a revenue cutter in a south England town that is a rats' nest of smugglers. Not only does the attractive young Captain Griffin have to hunt down and apprehend smugglers who will stop at nothing to foil him, but he has to battle intimidated villagers, as well. A page-turner, highly recommended.

Action and intrigue in the Napoleonic age

By Eva Ulett

Alaric Bond's story of the maritime revenue service has as much action and more intrigue than most novels set in the more familiar atmosphere of the Royal Navy during the Napoleonic age. In 1801 Commander Griffin leaves the Honorable East India Company officer corp for command of a beautiful, swift sailing revenue cutter, the Bee. Any joy in his new command is quashed when Griffin finds a highly organized crime and smuggling syndicate operating in his new home port of Newhaven. The Horsebridge gang is dominating the port town, which may include Customs House officials and local justices, through a combination of intimidation and reward. Will the town of Newhaven, and more particularly an attractive and capable young woman, rally in support of Commander Griffin, or be as complicit in his destruction as they were his predecessor?

Turn a Blind Eye is a thrilling adventure the equal of any by Steve Berry or William Dietrich, with battles by land and sea that are not to be missed. A highly enjoyable and satisfying read.

Bash

I loved the book. A twist from Bonds usual Sea tales but I was not disappointed at all. Keep up the good work and keep them coming.
