Narrator Kellie Jones brings to life the bleak world of the Afghan refugee in Australia. Listeners learn of Gulnessa and her family, who have fled persecution in Afghanistan. In Australia they find their troubles have just begun. In relaying Gulnessa's story, Jones deftly switches from the accents of the Middle Eastern refugees to the accents of the Australian characters, never missing a beat in this harrowing story. Through Gulnessa's tragedy and triumph, listeners become enmeshed in a largely unknown world. The book ends with a lovely author's note that explains her impetus for writing this story. Though the unabridged version runs a little long, this most enlightening audio journey illuminates the human spirit. M.R.P. © AudioFile 2007, Portland, Maine-- Copyright © AudioFile, Portland, Maine

Thought provoking

By lisa latimer

I bought this book because my granddaughter was reading it for school. (She is 12) and I wanted to see what the kids were reading and whether it would help them develop more empathy. I do believe it did that.

A book that actually made me cry

By Bookworm

Amazing.

Walk In My Shoes is a touching novel about a girl and her family that lived in Pakistan and have immigrated to Australia. Australia is everything they have ever dreamed of. But after two years in refugee camp, and many unwelcome surprises, it seems they have lost hope.

Touching, amazing and the true side of what is actually happening to Pakistani refugees in Australia. Walk In My Shoes really makes you feel as if you are walking in the shoes of an Pakistani refugee.

Every Australian of reading age should read this book

By Teieka

Walk in my Shoes is about a Pakistani refugee family who arrive in Australia after going through a circuitous, arduous and dangerous journey. When they arrive they are full of hope and believe they are finally safe. However, the family is immediately placed in a detention centre out in the desert where they linger for almost two years before being released. The loss of hope, the anguish and pain this family suffers while they try to prove to the Australian government that they are indeed refugees is excruciating.

The reading age of this book is 9-12 years but is suitable for all age groups and I would recommend it as essential reading not only for school children but for all Australians. It is difficult not to feel deep compassion for those people who have suffered so terribly in their own countries and have come to Australia (even if they have by-passed the legal channels).

It gives another perspective to the refugee debate quite different from the government's stance and is likely to produce a public outcry about the way refugees are being treated in Australia. Indeed as the protagonist of the novel points out - why if we weren't refugees would we come to Australia on such dangerous unseaworthy boats? Terrorists are never going to travel this way.
